

MAHITHA CHINTHAMREDDY

FULL STACK WEB DEVELOPER

SUMMARY

Skilled in Front-End Technology, Full Stack, and QA/test automation. Proficient in languages like Java, Python, and JavaScript. Skilled with React, and AngularJS. Strong problem-solving and communication skills. Excited to contribute to high-profile projects and learn from experienced mentors.

EDUCATION

Bachelor of Technology 2020-2024

NBKR Institute of Science and Technology - Nellore, Andhra Pradesh

- Electrical and Electronics Engineering with CGPA - 8.8

Intermediate 2018-2020

Sri Vema Junior College - Nellore, Andhra Pradesh

- Applied mathematics, Physics and Chemistry with CGPA - 9.88

S.S.C. 2018

Vidhva Khendra English Medium School - Nellore, Andhra Pradesh

- Mathematics and statistics, Reasoning with CGPA - 9.7

PROJECT

Modeling Of Switching Bi-Directional Buck-Boost Converter For Hybrid Energy Storage System For Electrical Vehicle To Grid.

- It focuses on efficient energy management, voltage regulation, and bidirectional power flow.
- The goal is to enhance battery life and support grid stability through advanced control strategies and simulations.

Advanced Simple TODO List Application

- It enables efficient task management with features like adding, editing, and deleting tasks, setting due dates and reminders, and assigning priority levels.
- The application ensures secure user authentication and cross-platform synchronization.

User Friendly Portfolio

- It focuses on creating a visually appealing website showcasing skills and projects.
- It emphasizes simplicity and responses across devices.
